Longstreet will be sent to Belle Meade in a few days. It appears that the pitiful exhibition that this horse made on the occasion of his last race, was brought to the notice of the S. P. C. A. The Society investigated and found that Longstreet was in good shape and had entirely recovered from his lameness.

Liselg would have won the fifth race a couple of more jumps. She was alshing very strong.

Wernberg's defeat of Galilee was a supprise to every one save Jimmy Mc-Laughlin. He prophested Wernberg's yetory on Monday.

. . .

Between the racing and two fights the lent had more than a goodly share of citement at the hilitop track yester-ty. Just after the fifth race Jockey ansom, who has been riding for Hugh (Carren, attacked "Polo Jim" Jefferm, Starter Caldwell's assistant, and it him between the eyes and across the neck with a penkulfe. He then tried to cape through the club-house, but was light and locked up. Ransom claimed that Jim had hit him hile at the post in the fifth race, and it this reason he stabbed him. Jim's its were not serious.

Another wrangle occurred immediately fiter the last race, which was won by ling Crab. The old horse was returned to the judges' stand and put up at aucon. Jack Shanley, the former trainer of the old horse, bid him up \$500. A. Worley, who now handles the horse, bid min, and then walked up to Shanley and punched him in the face. The pair are separated. The Executive Committee will take action in the case to-morew, and Worley will probably be arned off the track.

It will be a long time before the talent will get 12 to 1 against Selena D. in a long race. The manner in which she heat Strathmeath after making all the anning stamps her a good one.

Rosa Maloff, a pretty Arabian glyl, of 20 Rector street, New York, who earns a living by peddling trinkets, says she was passing his store last evening and he called her inside. She entered supposing that he wished to purchase some of her goods. She declares that as soon as she entered the store he assaulted her. She cried for help and several persons who were passing the store called Policeman O'Rourke, As O'Rourke entered the Greek disappeared through a trap door. The officer followed and dragged him out from behind a pile of barrels. Skioda begged the policeman not to arrest him and offered him \$10 as a bribe.

Hill Men Will Get Half of Their Seats in the Convention.

The Machine Likely to Make Raines Chairman.

Little Doubt in Saratogs of Maynard's Nomination.

SARATOGA, N. Y., Oct. 4 -- The Dem quietly in operation at the Adelphi, where the headquarters of the State Committee are, and where the bosses are fixing up the slate and preparing the orders for the delegates to carry out. Senator Murphy and Richard Croker are expected this afternoon, and

Committee, has prepared a list of the delegates. It shows that contested and uncontested, the Anti-Snappers will claim between eighty and ninety seats in the Convention. The seats of about one-half of this number will be given to Hill men. This, it is said, will be done to save some of Senator Hill's lieutenants from the humiliation of admitting their defeat by the Anti- Snap-

meeting of the Convention at noon to-morrow. The Convention hall is one of the prettlest places of its kind. It is not a big barn, like most convention halls in the country are, but was built for a convention hall, with proper acous-tic effects and arrangements for light and ventiliation. For the present occa-sion the hall is decorated with patriotic colors.

sion the hall is decorated with patriotic colors.

To the right of the stage is a picture of President Cleveland and on the left is a likeness of Vice-President Stevenson. Corporation Counsel Clark, who with Mayor Gliroy, County Clerk Purroy and Fire Commissioner Scannell is here, is authority for a statement that is important in the light of current events. Asked who will be chairman of the Convention, he replied:
"Possibly George Raines."
Raines, who is a contesting delegate from Rochester, was said to have been beaten in a fair and square fight by the Anti-Snappers four to one in the Third Rochester District. The fact that Raines is talked of for Chairman indicates that the contest of the Anti-

Albany. Privately, these men denounce Senator Hill for his selfishness in attempting to secure what he believes to be a vindication of himself by forcing Maynard on the party.

The machine will be supreme in everything. The delegates will not even be permitted to have a voice in the selection of their State Committeemen. The new State Committee, the five candidates to be nominated on the State ticket, the fifteen delegates-at-large to the Constitutional Convention and the officers of the Convention to be held to-morrow will be selected for the Convention by the State Committee at a meeting to-night.

There may be several changes of New York members on the State Committee. E. T. Flizpatrick and Surrogate Flizgerald will probably be left off the list. The bosses will see to it that none but tried and trusted Hill men get on the Committee excepting in the First, Twenty-first, and Democrats have apparently won.

The Cleveland men will be in a minority on the State Committee, having at the most only four votes out of thirty-four, but it will be a gain for them, the only Anti-Snapper on the present Committee being D. Cady Herrick, of Albany.

ALVO'S LIFEBOAT BROUGHT IN.

It is not be a start of the contained wither part of the crew or passengers of Alvo.

"There is no doubt in my mind," said that the boat had been lowered. There is no evidence that it had been lorn away, else the ring bolt in the blocks would have been broken. These are finact. While the care are gone, one of the tanks, I noticest, is also missing, and while I have not made up my mind fully on the subject. I am inclined to believe that some of the persons on the lift-fated steamer, at least, did not go down with her. That the vessel is lost I have no doubt in my mind; and while I have not made up my mind fully on the subject. I am inclined to believe that some of the persons on the lift-fated steamer, at least, did not go down with her. That the vessel is lost I have no doubt now. In fact, it is generally conceeded, and the marine insurance companies holding policies on the vessel are preparing to pay. As to the passengers or crew, I still entertain the opinion that some vessel picked them up.

The lost Atlas line steamship Alvo's lifeboat, which was picked up off the Bahamas Sept. 21 by the steamship Jason, was brought to this port to-day by the Atlas steamship Alene, from Kingston and other West Indian ports. The boat when picked up by the Jason was drifting oarless and without a per-

son in her. Her general appearance indicated that she had carried some person or crew from the lost vessel. It was, besides, the first evidence that the terrific hurricane of Aug. 24 had included the Alvo in its work of destruction, but the generally sound condition of the lifeboat She is painted white, with the ryd and blue flag of the Atlas line on her stern. when found has given rise to the hope that at least some of the crew and passengers have been picked up.

The Alene docked this morning at pier 1 North River. The first person to board her was Harold Forwood, the Company's agent in this city. The lifeboat trace was placed on the main deck a few feet away from the forward hatch and was covered with canvas. Only the keel and lower part of the hull were visible.

Mr. Forwood examined the boat with Capt. Seiders, of the Alene, without removing the canvas and then retired to.

"The boat was solution in the lifeboat it would not a landsman the vidence pointing to this fact, but it is clear to a scaman. I believe there were not more than three or four persons in fleet with water and had a hole stove in her side.

"The boat was found in latitude 32.98."

The Tammany Hall delegates to the Democratic State Convention, which will be held in Saratoga to-morrow, left this city at 1 P. M. to-day over the New York Central and Hudson River Railroad. There were two special trains for the delegates and their friends, each consisting of seven Wagner parlor cars. There were about 500 in the party, and the trains left the Grand Central Depot annex in two sections.

The districts travelled in the following order:

Pirst car—Sixteenth and Twenty-first Districts.

Third car—First District.

The delegates to the cabin.

The boat shows that it had some pretty hard knocking around in the ocean, the boat about six inches in diameter, and the sides show the Alvo went down inside the stream, off the Carolina coast. If the steamer went down outside the Hirboat would have floated out into midocean.

Forwood not to remove the canvas covering from the boat and to allow no close inspection, and the crowd of men who heard that the lifeboat was on the stamship were forced to examine her from a distance.

Agent Forwood, when seen by an "Evening World" reporter, said that while he had not made a close examination.

The doat was found in latitude 32.63, or about 250 miles east-southeast of Wilmington, N. C. It was just outside the Gulf Stream. I think the Alvo went down inside the stream, off the Carolina coast. If the steamer went down outside the Bull that have floated out into midocean.
